

NATURE AQUARIUM MASTER 
aqua design amano

YUSUKE HOMMA

Yusuke Homma had trained under Takashi Amano since 1994, and learnt Amano's philosophy of nature while working as his layout-making and photography assistant. Homma has created a number of displayed plated tanks in Nature Aquarium Gallery as one of ADA's representative aquascaping creators. Pursuing the motto of "Learn from Nature", he goes into mountains for taking scenery photographs in whatever free time he can find.

Witness the passion and philosophy of ADA Japan!
